Feedback for the student:

Nikita is a very talented student as well as with good behaviour and was also outstanding at conducting various activities in Anganwadis. Her charming smile and activities could grab the attention of all the students. She used to be punctual every day to the Anganwadi. She has a good teaching style. In her absence, the students always ask us about her, when she'll come back, etc. Since she had very less time, then also she tried to complete activities as much as possible. She has given us an activity of naming the part of the plant also the activity of the water cycle.
