

Synthesis and characterisation of bimetallic nanoparticles from hog plum plant and evaluation of their biological activities

A Dissertation for

Course code and Course title: CHB-651 Discipline specific dissertation

Credits: 16

Submitted in partial fulfilment of Master's Degree

In Biochemistry

by

Ms. STEPY CHINNAIAH VELPULA

Seat no: 22PO460021

ABC ID: 607330538456

PRN: 201810911

Under the supervision of

Dr. DELICIA AVILLA BARRETTO

School of chemical sciences

Biochemistry discipline

GOA UNIVERSITY

May 2024

DECLARATION BY STUDENT

I hereby declare that the data presented in this Dissertation report entitled, "**Synthesis and characterisation of bimetallic nanoparticles from hog plum plant and evaluation of their biological activities**" is based on the results of investigations carried out by me in the Biochemistry discipline at the School of chemical sciences, Goa University under the Supervision of **Dr. Delicia Avilla Barretto** and the same has not been submitted elsewhere for the award of a degree or diploma by me. Further, I understand that Goa University or its authorities will be not being responsible for the correctness of observations / experimental or other findings given the dissertation.

I hereby authorize the University authorities to upload this dissertation on the dissertation repository or anywhere else as the UGC regulations demand and make it available to any one as needed.

COMPLETION CERTIFICATE

This is to certify that the dissertation report "Synthesis and characterisation of bimetallic nanoparticles from hog plum plant and evaluation of their biological activities" is a bonafide work carried out by Ms. Stepy Chinnaiah Velpula under my supervision in partial fulfilment of the requirements for the award of the degree of Master's in the Discipline Biochemistry at the School of Chemical Sciences, Goa University.

Barretto

Dr. Delicia Avilla Barretto

Assistant professor,

School of Chemical Sciences, Goa University
