

Plasma Engineered Material for Energy Harvesting and Environmental Remediation

A Dissertation for

CHC 600

Credits: 16

Submitted in partial fulfilment of Masters in Science

In Physical Chemistry

By

ESHITA RAGHUNATH KAKODKAR

DECLARATION BY STUDENT

I hereby declare that the data presented in this Dissertation report entitled, 'Plasma Engineered Material For Energy Harvesting And Environmental Remediation' is based on the results of investigations carried out by me in Master of Science (Physical Chemistry) at School of Chemical Sciences, Goa University under the Supervision of Dr. Nitesh Joshi and the same has not been submitted elsewhere for the award of a degree or diploma by me. Further, I understand that Goa University or its authorities will be not be responsible for the correctness of observations /experimental or other findings given the dissertation. I hereby authorize the University authorities to upload this dissertation on the dissertation repository or anywhere else as the UGC regulations demand and make it available to any one as needed.

Ms. Eshita Raghunath Kakodkar
