~~Proforma~~ For Report of Concurrent Field Work Days

Date : 04/02/2022 [DAY 1]

Time : 9:45am - 6:00pm

Date of Submission : 22/02/22

:- Activity performed today :

It was my first day of field work and I was very happy to work with ARZ especially about Commercially Sexual Exploitation which I was not aware about. I reached ARZ at 9:45am as MS. Juliama asked me to report at 10:00am. MS. Juliama showed all the rooms in the office, Arun Sir has entered and introduced himself to me. MS. Juliama took a session about ARZ, how it functions, what is sexual trafficking, the law related to sexual trafficking, about child sexual abuse, commercial sexual abuse; during the session she asked me many questions to check how much I am aware about the work I'm going to handle for the rest of the days. MS. Juliama also explained about the Bama area; about the state protective home in goda of how it works and how ARZ is connected with state protective home. I learnt that based on the case details prepared by ARZ of the rescued victims. The adult victims are kept at the state protective home established under Section 21 of Immoral Traffic (Prevention) Act 1956 and the victims who are minor in age are

are kept at the government children's home, "Apna Ghar", established under the Juvenile Justice (care and protection of children) Act, 2000. The victims are rescued from CSE by the Goa police, only the police have the authority to rescue the victims and they are admitted only at Government shelter homes. Ms. Juliana also guided me about the one stop center and the work one stop center does. She introduced me to Bimawa Chalwade, I was not able to recognize her but later I remembered reading an article where she received an award "CII Women Exemplary Award 2019 for education". Ms. Bimawa also transformed lives of Goan girls at risk of sexual exploitation. Ms. Bimawa took me for a Baina visit. I learnt that Baina was an organised red light area next to Baina beach in Vasco, in June 2004 houses and brothels in the red light area were demolished by the Goa State Government. Where the women from Katombaina, a neighboring slum area and from the states of Karnataka and Andhra Pradesh were trafficked for commercial sexual exploitation. So I found many Kannada ^{speaking} talking people in Baina. A majority of these women were minors and got settled in Baina itself. In September 2006, AR2 started a shift wash, a laundry unit for the economic rehabilitation of women in prostitution, but when I went to see the shift wash I asked about it to Bimawa, she told that due to the covid situation they shut down the.

Shift was due to financial Issues. Bimawa guided me to note few phone Numbers from Baina area who wants to receive their Voter ID. We went to few houses to check whether they have received the Voter ID. Some people were verified through phone calls. Ms. Bimawa took me to Head of Taluka Revenue Office to collect the Voter ID for some of the community people. Learnt about the Supreme Court case to Issue Aadhar Card, Voter ID, Ration Card for the sex workers and learnt that it's a fundamental right and Right to dignity. Attended a period Hygiene awareness session with the children of Baina conducted by Lunida. Lunida told me to calculate some accounts which is related to a new project (Stitching project). I have learnt how the Nbo works, how to conduct a session, how to talk to children and the way they understood what we teach. Learnt what kind of opportunities can be created for the community people. Different organisations bring up new ways to help them like giving these people with used clothes that are then recycled into various products like stitching cushion covers, bags etc. Learnt how they will rescue the victims in a theoretical and legal way provisions. The stages of Commercial Sexual exploitation, Resistance, adaptation and acceptance. Ms. Juliana also explained me that in the 1st stage the Victim

will be with 24 hrs security, chance of exit for the victims are around 1 to 2%. The victim at this stage can be rescued only by police but Noida customers may help but as there are too much of security it very hard to rescue the victims. They also do not earn anything at that stage. The second stage of adaptation there are 20% - 50% chance for rescue but as they have faced violence + sexual exploitation at 1st stage it is very hard for them to believe someone. In the stage of acceptance there are 50%-5/Chances, as the selling network (or) agent who brought them to the place start believing them and they also start earning more so they will think many times to come out of the sex work. Ms. Juliana gave ^{me} a task for ~~me~~ to read the book "Beautiful women" and asked me to discuss about one women & analyse the same. I had a great experience with ARZ on my first day; Even when language was a barrier I enjoyed the things which I have learnt in my 1st day.

- Observation related to Agency, Services, delivery etc:

The way ARZ maintain their A/c's book, the discussion which they had in the morning and at the end of the day, I was not a part of it as the meeting was an employee meeting. The task which is assigned to each person

RACHANA is followed by the team.

- Assigned Tasks : To analyze one story from the book "beautiful women"; to write down the accounts for the record stitching project.
- Techniques / Skills / Qualities used: 1. Driving; 2. punctuality; 3. Typing; 4. Concentrating; 5. Communication; 6. Participatory management; 7. Group Discussion; 7. Team working; 8. Willingness to learn & understand the routine job.
- You have understood to relate theory into practice while writing your reports.
- For Despite language barrier, you are making good attempts to learn all intervention about the organisation.

22/02/2022

Proforma For Report of Concurrent Field Work Days

Date : 11/02/2022 [Day 2]

Time : 9:45am - 6:00pm

Date of submission - 22/02/2022

Activity Performed Today :

MS Juliana guided me to work with MS. Annapurna Rajput, a community worker + SHG wash Supervisor and was working in ARZ for past 13 years. I felt so comfortable working with her, she communicated with me in telugu and asked me to learn Hindi. I reached the field work at 9:45am. MS. Annapurna asked me to calculate the list of provisions which ARZ is giving to the community people. The list had 5kg Rice, 2kg sugar, 5 soap, 10 Biscuits, etc, the list was for 10 people. They guided me to calculate all the budget for the provisions which is given to the sex workers in the nearby slum area. MS. Annapurna took me to Hangoor hills and guided me about the area. After the abolition of the red light area in 2004, many of the sex workers moved to the nearby slum areas, one of the slum is Hangoor hills. There were many children who surrounded MS. Annapurna and she conducted a game called "JANO, KHETO, JEETO" awareness game which was very interesting, it was played like the "SNAKE + LADDER" game. The game had many cards,

One team has to pick a card and answer the question which is written in the card, it was like a awareness session which had questions about age of marriage, good touch & bad touch [safe & unsafe touch] etc. I learnt how to conduct a awareness session through a game. Travelled to 'Fakir Galli' which is the slum area nearby, MS. Annapurna took guided me about the area and ~~the~~ visited a sex workers place confidentially. When we visited, her daughter was looking and talking with MS. Annapurna in Kannada. She discontinued her education due to economic condition as her mother is still in sex work. She is vulnerable due to the surrounding she is brought up, ARZ is trying to put her up in the boarding school but her mother is not allowing to continue her schooling. Seeing the sex workers on the road at night, dressed up but with the family they were very normal. Visited two more sex workers who requested to provide them for the station, one client's son met with a accident & we had a conversation with their family. I was assigned a task to do a warranty registration for a speaker which was provided to State Protective Home, Mysuru. The speakers were provided by ARZ for the victims who are in SPH; as the victims are not allowed to go outside ARZ thought if they provide a speaker, so that it will be relaxing for the victims.

Ms. Juliama took me to a government school New Vardem where they conducted a awareness session, ^{use full forms always} ~~main~~ took me to receive the fee for the awareness session for the children in the school.

- Observations related to agency, services, delivery etc: How to conduct a game, how to communicate to the sex workers & how to behave in the field.

- Assigned tasks: - Lurida assigned a task to make a reels for the Insta page to sell the bags, cover which is done by the sex workers.

- Techniques / Skills / Qualities used: Listening skills, patience, communication skill, driving, team working.

~~need not~~
write everything

- Good.

22/02/22

Report of Concurrent Field Work Days

Date : 18/02/2022 [Day 3]

Time : 9:50am - 5:50pm

Date of Submission : 01/03/2022

Activity performed today :

As soon as I reached ARZ at 9:50am, MS Annapurna explained me to type Social Investigation Report, showed me some reports & client details. Social Investigation Report which is prepared for a child which is in need of care and protection and sent to child welfare committee, in ARZ the report was prepared to send the children for boarding school as they don't have good environment to study. The typing of Social Investigation report was completed at 1:00pm. The social investigation report had details of parent of the child, in which STD + school they are studying; observation of the report. Did a study on Trafficking of Women & Children for commercial Sexual Exploitation (CSE) in Goa; A Statistical Analysis (2014 to 2019). As I have heard before the majority of the clients are domestic tourists, the main form of sexual activity which is happening commercially

is hotel and lodge based, followed by massage parlor and flat based. Learnt many things which was like a awareness for me; Post rescue detention at protective home for 21 days (for victims), which is enquired by the magistrate, calling family members for inquiry. The age group of the victims are ranging from 21 to 35 yrs. It was very useful and I had a clarity after reading the book. There were majority of rescued victims who accepted that they were involved in CSE [88.25% Accepted; 11.75% Not accepted]. Most of the rescued women were from Indians and 15.8% were foreigners which I was not aware about, the myth was there are so many foreigners who are involved in sexual commercial exploitation. Had a statistical clarity about State Distribution of victims. Relationship with traffickers are mostly known and there are very less percentage of unknown victims who are trafficked. The causes of trafficking are mostly because of Job; Financial problem at home and victims are sold; Marriage, harassment & kidnapping comes the next. Learnt that majority of the victims were rescued by the police who were successful in rescuing the girls. There are very few instances where self rescue as a victim is completely under the control of the traffickers. Mostly Rural Area people are vulnerable to Commercial Sexual Exploitation.

It is clearly shown that lack of development & inadequate income earning options particularly in rural areas as compared to urban areas which create vulnerability to CSE. Where religious wise majority statistical study was very new to me, Hindu & Muslims were high. Marital status of victims; Educational wise distributions of victims; Family structure & distribution of victims; Family situation. As reflected in low literacy levels the lack of skills & education makes the girls/women victims of commercial sexual exploitation particularly as they support family members. It is generally found that the traffickers identify vulnerable girls build relationship with them & then traffic them; Nature & services which are requested for rehabilitation which include shelter; Job; Protection; education for children; Health services payment of loan. Nature of service requested for rehabilitation like shelter, Job opportunities, education for children, health services; payment of loan, Retrieval of property. There was so many information which I was not aware about and learnt everything.

Observation Related to Agency, Services, Delivery etc:

Observed the how the agency

Report of Concurrent Field Work Days.

Date : 25/02/2022 [Day 4]

Time : 10:30am - 6:30pm

Date of Submission : 01/03/2022

Activity performed today :

Ms. Jofina assigned me a task to design a task chart for the community people who came to ORZ to take part in the Legal Service Committee, Mormugao. The chart contained what is NGO?; How did NGO change your life; what more should an NGO do?; How did you come in contact with the NGO. Ms. Jofina took me to Deep Vinayak Higher Secondary School to get permission from them to have a ^{awareness} session on sexual trafficking & child sexual abuse & we also went to MES College and School to have the session for the students. I learnt how to approach the school (or) college to conduct the awareness program. The children who come for stitching classes was learning embroidery and learnt the opportunities we can give for the community people. The legal service committee, Mormugao conducted a awareness session on legal aid service which they are providing in the

court, the session was for the community people to get free legal service and to approach the legal aid for all the service.

Report of Concurrent Field Work Day

Date : 04/03/2022 [DAY 5]

Time : 10:05 - 6pm

Date of Submission : 23/03/2022

Activities performed today :

Ms. Sofra assigned me a task to design a chart for a the session which was happening in the evening. The chart had questions like whether the training met your expectations? Was the timing of the tailoring course was suitable for them? ect. This session was for the students who were coming for the tailoring class. It was very happy to see everyone dressed up for the evening class. Ms. Sofra assigned me the work to make the group activity report which is called as SPH. The Report had activity & they have conducted a self awareness program, objective was to identify the different aspects & qualities of themselves. Number of participants, Methodology & Observation, were they have conducted a ice breaker game for the participants to build an environment for better. learnt that this activity was conducted to help the

participants and their qualities & talents. It also helped the participants know more about what they would want to achieve in the future & how they could act to achieving their wishes & dreams. The second Report was teaching a way of Sooth self and relieving stress, this activity which was dealing with all the music and they were told to stroke lines using those colors for the tone of the music, ^{the report says} the participants were felt after the session. Ms. Kusada gave a list of Appliances and asked me to prepare quotation for the items mentioned. Overall learnt the SPH Activity report which was very new to me. For the last two sessions I have recorded three hours Audio which has to be translated & understood more.

Assigned Task: : Documenting has to prepared regarding the transgender who have got their voter ID & who have vote for the 1st time.

✓ good involvement in agency's work.

Report of Concurrent Field Work Days

Date : 25/03/2022 [Day 6]

Time : 10:00 am - 6:00 pm

Date of Submission : 28/02/2022

Activity performed today :

I reached the field work at 10:00 am, Lurida gave me a task to write a script of a street play and explained the story to me which is based on selling a girl as she was financially broken. Women who help the women was the concept of the street play. I have made the script and it was an overall experience to know the ways to create awareness among people. Ms. Anapurna guided me to type a SPH Resident meeting Report, the report had ARZ Staff details, SPH Staff details and No. of Residents. The residents shared the drawbacks of SPH and what are necessary things they want in SPH. The report had Issues relating to Food, Cleanliness, clothes and other Issues. Learnt how SPH is functioning and the thoughts of the people inside the home. Sofia gave me a task to collect the news paper article of ARZ and read ^{most of} ~~at~~ the news related to ARZ & also Sofia guided me to fill the organisation profile which

was useful for my course. Ms. Sofia assigned me a task to type ~~of~~ Report about ^{Session on} child Sexual Abuse and Human trafficking. The Session was held in Father Agnells Hr. Sec school Nerva on 2nd March 2022. The session was about who is a child; Age of the child; child private parts of the child, they also discussed about the POCSO Act for legal awareness, Direct & Indirect forms of abuse, Stages that lead to child sexual abuse, prevention of online child sexual abuse, about the helpline number, types of human trafficking was also discussed. Learnt about the cybers crime cell which takes action when complaint is given online. Sofia cleared my doubt about ^{whether} transgender are kept in State protective home and it was good to know that they are kept in State protective home. By the task assigned last week about the 1st time voting of transgender in goa [to make a documentary regarding the same], was very useful & shocking for me to know that they have voted for the 1st time after 30 to 40 years being in goa and learnt how much work p.e. 2 has done for them.

✓ see if you can initiate any activity with any beneficiary

Report of Concurrent Field work days

Date : 26/03/2022 [Day 5]

Time : 10.00 - 6.00pm

Date of Submission : 12/05/2022

Activity performed today

Attended National Confederation of Human Rights Organisation, Goa which took place in Raia, Calcutta. There were so many speakers of different states from the Human rights organisation, many were advocates who work for Human Rights. The 1st speaker talked about how important the constitution is and how the students from law should give importance to constitution. The part of ARZ is the speech was about proving voter ID for the 1st time and there were 1st time voters and there were many transgenders who were speakers who travelled from ARZ. The speakers shared about the struggle to get their voter ID. The basic fundamental rights for all the citizen were not given to them. The 1st time voters were around 30 years and they were lived in the place for more than 20 years without the voter ID.

I have prepared a documentary of many interviews of transgenders who have shared their experience about the struggle they went through without voter ID and how happy they were because of APZ after receiving the voter ID, after giving the 1st vote in this election. There were many speakers the session which continued about coal transportation issue which is affecting the beaches in Goa, there were many issues addressed by many advocates which was conducted as a interview from different state people were representing. I gained more knowledge in this session.

Techniques | Skills | Qualities used:
 Communication, creating a documentary,
 Participatory management, willingness to learn & understand the routine jobs,
 concentrating, effort to translate the language as the whole session was in different language.

Report of Concurrence + Field work days:

Date: 01/04/2022 [Day 8]

Time: 9:50 - 6:20pm

Date of Submission: 12/05/2022

Activity performed today:

I participated in a session on child sexual Abuse and Human trafficking in Dhempe college, Nitoma. The session was very useful for me and learnt how to conduct a awareness session and the importance of a presentation. There were more than 100 students who were not aware about trafficking, child sexual abuse etc. The session taught me about the Indirect & direct abuse, Stalking, Voyeurism & Exhibitionism, how does child sexual abuse takes place and the ^{Steps} ~~phases~~ of child sexual abuse, Identification, Betrials, threatened & frightened & test abuse & repeat. This taught me how awful students should, this which leads to trafficking also. I also prepared a awareness session report

also taught me how to make a awareness session report which have a file which can be verified in the future and the questions students asked was address by the speakers and new questions by the students was a learning process to know what all students did not know from their perspective.

Techniques used : participatory management, willingness to learn.

~~Pl~~ late submission

discuss in class what you learn at ARZ in all the workshop you participated

Report of Concurrent Fieldwork days:

Date: 08/04/2022 [Day 9]

Time: 10:30 - 5:25 pm

Date of submission: 12/5/2022

Activity Performed

I visited the new service provider office WISH "Women Initiative for Self Help" where they have started it with Raylaid material and reviving traditional handwork, paper products production, bags out of saree, Napkins, paper bags, shopping bags etc. participated in a sexual harassment session, Mr. Tuliana ~~was~~ a speaker & she spoke about sexual harassment & learnt to what extent a awareness session can be conducted and there were many images where the participants understood what sexual harassment is and what is not? I have also made a awareness session report and clarified doubts about whether the trafficked women who are in State protective home are been a victim again. There was 4 reports assigned to me, awareness session

Report.

Techniques used: Team working, willingness to learn & understand the work, Communication Skills.
