Action taken report on Students Feedback on the Courses offered

Academic Year 2023-2024

1. We received feedback for all the courses of I, II, III and IV Semester.
2. Majority of the courses received Very Good and Good Rating and few along with Very Good and Good received satisfactory feedback. Faculties will try to work on the courses and sections where satisfactory feedback has been received.
3. Only two of the courses in the following sections received two responses as unsatisfactory these has been discussed with the concerned faculty for the needful action.
 - a. Availability of access to relevant library resources - The reference list for the course is made available in the syllabus, besides reading material is also circulated in the class. It is observed that the books for Women's Studies are not stacked separately in the library and therefore students are not able to access the same easily as other disciplines.
 - b. Availability and access to IT resources- There is no separate computer lab facility available for the students in faculty block B and internet connectivity is also poor. However, we do make available resource room adjacent to office and computer /laptops for students as and when required during teaching- learning process.
4. Overall, we received very good and good responses for all the courses offered during the academic year.
