Report on 'Using Logical Framework Matrix for Organising Research: Possibilities and Limitation'

1. Title of the Event/Activity/program	Using Logical Framework Matrix for Organising Research: Possibilities and Limitation
2. Date and Time	9th February, 2023 at 3:00 p.m.
3. Mode of conduct (Physical/Online)	Physical
4. School/ Directorate/ Section	Goa Business School
5. Collaborating Agency/School/Directorate	NIL
6. Detail of the Resource Person (Brief biodata)	Dr. Nandan Nawn, Professor, Department of Economics, Jamia Millia Islamia, a Central University, Delhi
7. Number of Faculty attended/participated	6
8. Number of Student attended / participated	65
9. No. of external students/faculty/other participants	Nil
10. The objectives of the Program/activity/event	The objective of the program was to provide an in-depth understanding of the Logical Framework Matrix (LFM) as a tool for organizing research projects. Also, it aimed to explore the possibilities and potential advantages of using the Logical Framework Matrix in research endeavors and provide participants with practical tips and guidance

	on how to effectively apply LFM to their own research projects.
11. Description of the Program/activity/event	<p>The Talk began with a welcome address by the students of M.A. Economics, G.B.S followed by the introduction of the resource person. It was a well-structured session that spanned approximately for two hours. The Resource person commenced the talk by providing an overview of LFM and its use in research project. A detailed breakdown of the four core components of LFM: Objectives, Indicators, Means of Verification, and Assumptions was provided. It highlighted how LFM can be adapted to various research methodologies, such as qualitative, quantitative, and mixed methods research. Some real-world examples of research projects successfully using LFM were showcased. The talk also explored the numerous possibilities and advantages of using LFM in research.</p>
12. Benefit/Key outcomes of the Program/activity/event	<p>One of the primary outcomes of the program was an improved understanding of the Logical Framework Matrix among the participants. Attendees gained insights into how LFM can be used as a powerful tool for structuring and organizing research projects. They learned about its role in clarifying project objectives, identifying key indicators, and ensuring alignment with desired outcomes.</p>
13. Enclosures with report	Brochure, geo-tag photos and attendance
