

**Goa University**  
**School of Earth, Ocean and Atmospheric Sciences**  
*In association with DIQA*  
*Organizes a webinar on*

# **Chronicling Climate**

Speaker:

**Dr. Atreyee Bhattacharya**  
**Research Faculty**  
**University of Colorado,**  
**Boulder, USA**

This talk will highlight how high-resolution indirect observations (i.e. proxy observations) are obtained from natural and human archives to reconstruct climate variability and its impacts, especially over the late Holocene, focusing mostly on the last millennium.
