## About the Seminar

Rights for all, irrespective of age, are a fundamental tenet of humanity, with the process of aging being a natural phase within the human lifespan. India is experiencing a significant increase in its elderly population, currently holding the position of the second largest globally. The rapid pace of economic advancement, urban development, and consumerism surge has unfortunately cast a spotlight on the severe issue of elder abuse. The elderly is perceived as susceptible for a myriad of reasons including psychological, social, physical, and legal aspects. Daily, their rights are infringed upon, despite the existence of various laws, policies, and programs designed to meet their needs.

However, the efforts cannot end here; more proactive measures are essential. The societal perception of the elderly varies, and change is an expected constant. Nonetheless, it is crucial to recognise that neglect of the elderly and senior citizens is not an option. Their invaluable contributions to family and society, their rich life experiences, and their profound expertise and skills need appreciation and utilisation, with a keen focus on their preferences and comfort.

In response to this, the Manohar Parrikar School of Law, Governance and Public Policy, in collaboration with the D.D. Kosambi School of Social Sciences and Behavioural Studies and supported by the Directorate of Social Welfare, Government of Goa, is proud to convene a seminar on the Rights of Elderly Citizens: Issues and Challenges. This initiative aims to delve into the struggles faced by our older citizens and to raise societal awareness regarding the duties owed to safeguard them.

The Seminar aspires to:

- Illuminate the inherent rights of the elderly alongside their societal contributions.
- Delve into the multitude of challenges they encounter.
- Pinpoint existing frameworks that offer protection and support to the elderly.
- Educate and raise awareness within the civil sphere about elder rights.
