

## Report on Workshop by Mr. Clinton Vaz

### on “Waste Management”

<b>Title of the Event</b>	Waste Management
<b>Date and Time</b>	17 <sup>th</sup> December 2023- 5.00 pm to 6:00 pm
<b>Mode of conduct</b>	Physical
<b>School/ Directorate/ Section</b>	Social Work Programme, Manohar Parrikar School of Law, Governance and Public Policy, Goa University
<b>Collaborating Agency</b>	Unnat Bharat Abhiyan
<b>Detail of the Resource Person</b>	Clinton Vaz is a young Civil Engineer who is a founder of vRecycle. He worked in Panjim Municipal Council, later worked as a consultant for residents to set up waste management facilities within their compound. Over the years, he realised consultation –advice does not always work and started working on the field. With that he started vRecycle’s waste management services. vRecycle provides waste collection services to more than 10,000 and other units scattered across many village Panchayats and Municipal Councils in Goa. They support residents to manage organic waste on-site and collect dry waste segregated in as many as four or more categories- glass, paper, PET bottles and metals. Sanitary waste is collected separately.
<b>Number of Faculty attended</b>	1
<b>Number of Student attended</b>	18
<b>No. of external participants</b>	25
<b>The objective</b>	The objective of the event was 1) To prepare a community to effectively manage waste, debris and materials generated in their homes. 2) To achieve a sustainable environment for all.

<b>Description of the activity</b>	<p>In the session, Mr. Clinton Vaz gave various examples of waste segregation and gave an explanation on what all things come in dry and wet waste.</p> <p>Mr. Clinton demonstrated the waste segregation by showing two different colours of dustbin that is green and blue. He also emphasized on the waste collection days by village Panchayat of Gudi- Paroda and urged the audience to hand over the segregated waste to them.</p> <p>In the end he showed some materials which were made up of dry waste in his company, signifying the need to recycle non-biodegradable element which is otherwise burnt.</p>
<b>Benefit/Key outcome of the event</b>	<p>The audience through the hands on waste management workshop were able to identify and categorize waste into wet waste and dry waste. They learnt how plastic can be recycled which is normally burnt or thrown outside.</p> <p>The workshop was also important as it was focused on the need to contributing towards a clean, healthy and safe environment.</p>
