Report on

Exploring the Dust and Gas in Galaxies Using James Webb Space Telescope

1. Title of the Event/Activity/program	Exploring the Dust and Gas in Galaxies Using James Webb Space Telescope
2. Date and Time	August 24, 2022 at 9:30 AM
3. Mode of conduct (Physical/Online)	Online
4. School/ Directorate/ Section	School of Physical and Applied Sciences
5. Collaborating Agency/School/Directorate	
6. Detail of the Resource Person (Brief biodata)	Dr. Aditya Togi, Texas State University
7. Number of Faculty attended/participated	10
8. Number of Student attended / participated	128
9. No. of external students/faculty/other participants	160
10. The objectives of the Program/activity/event	Give the latest research achievements and updates related to the research activities in dust and gasses in Galaxies using the latest data collected by the James Webb Space Telescope to bachelor as well master students in University and Colleges.

11. Description of the Program/activity/event	Dr. Aditya Togi introduced the latest research achievements related to the research activities in dust and gasses in Galaxies using the latest data collected by the James Webb Space Telescope to bachelor as well master students.
12. Benefit/Key outcomes of the Program/activity/event	Students from Goa University and colleges benefited from Dr. Aditya Togi's research experience and his latest JWST related research. After the seminar, students and faculties participated in question & answer session along with some exciting discussions related to JWST results.
13. Enclosures with report	Brochure, Geo-tag photos, Attendance of students/faculty.
