

Date: 31st Dec 2022

Dear Pratima Prashant Thakur,

It gives me immense pleasure to welcome you to Ataneo Technologies Pvt. Ltd. I value your attitude, creativity, and skills and am delighted to have you as a part of the Ataneo Team. You are appointed as a professional consultant for Emerging Sciences Product development (designation: Product Development Lead – Emerging Sciences). I am sure we will have a mutually rewarding experience on this journey. I wish you all the very best and a fulfilling career ahead.

Attached is the contract work agreement for your perusal. Appreciate it if you could sign the document (pages 8, 9 & 10) and return back a copy as your acceptance of the contract.

Thanks,
Rajesh Shah
Founder & CEO

About Us:

Ataneo Technologies is an Indian technology start-up on a journey of building a unique skill-based program for young students (Brand name: 10xTechClub). It's a science and tech lab that focuses on new and emerging technologies like AI, IoT, Blockchain, Robotics, VR/AR, 3D printing, Drones, other deep tech, nanotechnology, biotechnology, other sciences. The students will be exposed to various industries/ domains using these new technologies and sciences using real world projects and problems in our labs.

We train and expose the young minds to the areas in science, emerging technologies, innovation, entrepreneurship and develop foundational skills early on in the learning journey. The future belongs to students who take a multidisciplinary approach, have a broad understanding of emerging technologies & industry trends and then apply the appropriate solutions for the specific use cases. Building such skills take time and we encourage students to start this journey early.
