Some of the major problems currently faced by the higher education system in India include:

- (a) A severely fragmented higher educational ecosystem;
- (b) Less emphasis on the development of cognitive skills and learning outcomes;
- (c) A rigid separation of disciplines, with early specialization and streaming of students into narrow area
- (d) Limited access in socio-economically disadvantaged areas, with few HEIs that teach in local languages
- (e) Limited teacher and institutional autonomy;
- (f) Inadequate mechanisms for merit-based career progression of faculty and institutional leaders;
- (g) Lesser emphasis on research at most universities and colleges, and lack of funding
- (h) Sub optimal governance and leadership of HEIs;
- (i) An ineffective regulatory system
