<b>The objective/description of the activity</b>	This talk developed a philosophical conceptualization of solidarity and reciprocity, which can contribute toward decolonizing feminist theory and praxis across differences. The framework served as a counterpoint to some of the traditional understandings of feminist solidarity that are vitiated by a colonizing impulse. The philosophical definitions proposed to pave the way for robust ethics of recognition along with an ethics of humility
<b>Benefit/Key outcome of the event</b>	Monthly online guest lectures are meant to enrich the understanding of philosophical perspectives and research of the students and faculty of philosophy as well as the general public interested in philosophy
